as of the end of 2015 there were 40.8 civilians who had been internally displaced by conflicts and effects of natural disasters in various parts of the world internally displaced persons idps are currently the largest group of persons receiving assistance from some of the main international humanitarian organisations with the largest concentration of internally displaced persons idps the african continent has been the worst affected region while previously idps have largely been neglected under international law the first ever continental binding treaty on internal displacement the african union convention on the protection of and assistance to internally displaced persons the kampala convention entered into force on 6 december 2012 as of january 2016 25 states have ratified the instrument while 40 states have become signatories

this book significantly contributes to the study policy making and practice on managing internal displacement by presenting the first major systematic examination of the evolution elements and implementation of the kampala convention it explores the responsibility of the state for the protection of idps particularly those who are most vulnerable during armed conflicts internal strife natural disasters human rights violations and other circumstances the status of ratification of the convention is reviewed as well as the steps currently being undertaken by governments to implement the convention it also analyses the contribution by human rights mechanisms inter governmental bodies and un peace keeping missions in the implementation of the convention the book casts the kampala convention in broader institutional and normative developments in africa and beyond it demonstrates how concepts such as responsibility to protect and sovereignty as responsibility have begun to make inroads influencing some of the more progressive instruments adopted by the african union it also sheds light on the relationship between the convention and some regional instruments in assessing the effectiveness of the kampala convention allehone abebe argues that the link between the convention and initiatives on development human rights and governance in africa should be fully fostered

it is evident that published serious science based work in forensic linguistics is predominantly written in english and focuses on casework from the english speaking world while the first aspect is understandable given that english serves as an international lingua franca in scientific discourse the second aspect presents a significant limitation for the field should researchers assume that there is simply less crime in non english speaking areas of the world a more pertinent question might be what cultural disciplinary legal or legal cultural factors contribute to the lack of research in and on languages other than english in addition to addressing the underrepresentation of romance languages in scientific publications related to forensic work the chapters in this handbook will also explore the reasons behind this unfortunate situation designed to engage readers whether they are linguists legal professionals or simply interested individuals and to spark interest in romance forensic linguistics this handbook follows three key objectives first we are committed to providing a comprehensive overview of the casework and research conducted in and on several romance languages including peninsular spanish catalan brazilian portuguese french canadian french italian and romanian second the chapters in this volume seek to understand why forensic linguistics has thrived more in some romance speaking countries than in others finally we aim to uncover the reasons for the slower development of forensic linguistics in regions where romance languages are predominantly spoken

the past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of american law and the institutions of the liberal state in this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory the authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of american law should take writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory a third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views the resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice a common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting radical critiques of the law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best
