sylvia is a heroine loved by two men of completely different types the novel follows her development from a wilful imaginative but not especially clever girl to an alert woman who has been matured by her suffering

alcott s wealth of allusion to other writers such as charlotte bronte margaret fuller and especially nathaniel hawthorne and of recurring motifs such as textiles texts and theatricals reveals her consistent subversion of conventional values for women

in an unprecedented comparison of two of the most important female authors of the nineteenth century azelina flint foregrounds the influence of the religious communities that shaped louisa may alcott s and christina rossetti s visions of female creativity in the early stages of the authors careers their artistic developments were associated with their patrilineal connections to two artistic movements that shaped the course of american and british history the

transcendentalists and pre raphaelites flint uncovers the authors rejections of the individualistic outlooks of these movements demonstrating that alcott and rossetti affiliated themselves with their mothers and sisters religious faith applying the methodological framework of women s mysticism flint reveals that alcott s and rossetti s religious beliefs were shaped by the devotional practices and life writing texts of their matrilineal communities here the authors iconic portrayals of female artists are examined in light of the examples of their mothers and sisters for the first time flint recovers a number of unpublished life writings including commonplace albums and juvenile newspapers introducing readers to early versions of the authors iconic works these recovered texts indicate that alcott and rossetti portrayed the female artist as a mouthpiece for a wider community of women committed to social justice and divine communion by drawing attention to the parallels in the authors familial affiliations and religious beliefs flint recuperates a tradition of nineteenth century women s mysticism that departs from the individualistic models of male literary traditions to locate female empowerment in gynocentric relationships dedicated to achieving a shared revelation of god
