alcestis medea the children of heracles hippolytus one of the best prose translations of euripides i have seen robert fagles this selection of plays shows euripides transforming the titanic figures of greek myths into recognizable fallible human beings medea in which a spurned woman takes revenge upon her lover by killing her children is one of the most shocking of all the greek tragedies medea is a towering figure who demonstrates euripides unusual willingness to give voice to a woman s case alcestis is based on a magical myth in which death is overcome and the children of heracles examines conflict between might and right while hippolytus deals with self destructive integrity translated by john davie
