microsoft office to increase your productivity and help you take advantage of the digital revolution

this is a complete revision with new material of the second edition of social sciences research research writing and presentation strategies for students scarecrow press 2008 there have been significant changes in the research process in the social sciences since the second edition of this text was published in 2008 a decade ago the plethora of new information technologies e g smart phones tablets apps etc the information overload not only on the internet where anyone can publish but also with the explosion of social media e g twitter facebook instagram etc as well as the far reaching changes in databases and other sources of electronic information that is available complementing the manual are appendixes consisting of a list of possible research questions an example paper a complete set of worksheets and blank citation forms to be used to record references which provide further practice for students in this third edition the author has included more instruction on searches using electronic sources as well as new formatting guidelines that have been promulgated in the past several years the ideal resource for college students this manual addresses the finer points of research and writing that are not given enough instruction in the classroom

this volume focuses on the decision making potential provided by second language performance assessments the authors first situate performance assessment within a broader discussion of alternatives in language assessment and in educational assessment in general they then discuss issues in performance assessment design implementation reliability and validity finally they present a prototype framework for second language performance assessment based on the integration of theoretical underpinnings and research findings from the task based language teaching literature the language testing literature and the educational measurement literature the authors outline test and item specifications and they present numerous examples of prototypical language tasks they also propose a research agenda focusing on the operationalization of second language performance assessments

teaching information fluency describes the skills and dispositions of information fluency adept searchers readers will receive in depth information on what it takes to locate evaluate and ethically use digital information the book realistically examines the abilities of internet searchers today in terms of their efficiency and effectiveness in finding online information evaluating it and using it ethically since the majority of people develop these skills on their own rather than being taught the strategies they invent may suffice for simple searches but for more complex tasks such as those required by academic and professional work the average person s performance is adequate only about 50 of the time the book is laid out in five parts an introduction to the problem and how search engine improvements are not sufficient to be of real help speculative searching investigative searching ethical use and applications of information

fluency the intent of the book is to provide readers ways to improve their performance as consumers of digital information and to help teachers devise useful ways to integrate information fluency instruction into their teaching since deliberate instruction is needed to develop fluency since it is unlikely that dedicated class time will be available for such instruction the approach taken embeds information fluency activities into classroom instruction in language arts history and science numerous model lessons and resources are woven into the fabric of the text including think alouds individual and group search challenges discussions assessments and curation all targeted to common core state standards as well as information fluency competencies
