DFID Support for Elections

- *The limitations of a technical fix*
- *Thinking politically about elections*
- *Meeting the challenge*

Opening ballot boxes in Sudan

The limitations of the technical fix

- The ultimate test of accountability
- The wake up call
- Why were we surprised?

Voter registration in Sierra Leone: every voter counts

Thinking politically about elections

- What Ministers want to know
- Questions about the role of elections
- Questions about the role of donors

Voting in Zimbabwe: A political act of courage

Meeting the Challenge

- A think-piece on the role of elections and donors
- A review of electoral support (lessons, best practice)
- 10 in-depth country case studies
- A framework for electoral risk analysis and mitigation option development
- A range of post-election options
- A briefing note on taking a political economy approach to electoral support
- Technical excellence
